This weekly eNewsletter is compiled by Neighbourhood Watch (NHW) volunteers as a service for residents in Ku-ring-gai and Hornsby council areas. The eNewsletter is a new type of Neighbourhood Watch; utilising the available technology to keep people more connected and up-to-date with local crime and safety issues.

The eNewsletter includes a selection of posts from our local police at the [Ku-ring-gai PAC Facebook page](#) (also known as 'eyewatch'), primarily for those not familiar with Facebook. We add anything interesting from a Neighbourhood Watch point-of-view - this could be a local newspaper article, a roadwork warning, crime prevention tip(s), an upcoming Neighbourhood Watch meeting, Q&As from residents, or an item from another Police command ("Crooks know no boundaries!").

🚗 Have you seen anything we should share with the community? [Please email](#) our NHW in Ku-ring-gai & Hornsby volunteers. We do value your contributions and thank you for your support.

🚗 Please feel free to share/forward this eNewsletter with your friends, family, colleagues and neighbours.

**18 September, from Turramurra Neighbourhood Watch: Shared with permission from a resident in the Turramurra and Wahroonga Community Facebook group:**

Hate to have to post this, but just letting everyone know that there are some scumbags going around the Turramurra area at the moment breaking into houses. Mine was broken into today, so please be vigilant and call the cops if you see anyone suspicious lurking around your house. Happened on one of the streets going off Bobbin Head Road, right near Turramurra North Public School.

**And in the comments:**

Thanks for sharing!! I had both my next door and cross the street neighbours' houses broken into and cars stolen Saturday night—lucky for us our dog warned them off breaking into our home, but I am devastated for my neighbours. I can't believe this!

Cars broken into overnight along Todman Ave. Might be worth checking your belongings /

dashcam etc.

**And in the comments:**

Our car was broken into last night as well on Wyomee Ave. Thief stole wallet, coins and a pair of Ray bans.

Not sure when but we've just discovered our car in the driveway in Tristania Place was opened and glove box and centre console searched, nothing taken; old Ray bans left on the seat.

No damage, they must be opening them with a lock bypass system.

They were in Warrowa Ave at 3am. Nothing taken, no face shots... (photo accompanying this comment).

**17 September, from NSW Health: Often a glass, bottle or can of alcohol is more than just one standard drink**

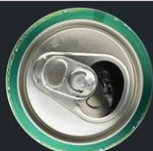

It can be easy to think that one premix can = one standard drink, when really it can be 1.5 standard drinks or even more. A standard drink contains 10 grams of pure alcohol. The type of alcohol (beer, wine or spirits) you choose makes no difference. It does not matter whether it is mixed with soft drink, juice, water or ice. 10 grams of alcohol is 10 grams of alcohol.

The Australian Alcohol Guidelines state that healthy men and women should drink no more than 10 standard drinks a week and no more than 4 standard drinks on any one day to reduce the risk of harm from alcohol.

To learn more about standard drinks, visit the Your Room website [here](#).

**17 September, from NHW Ku-ring-gai & Hornsby: Thank you to PHN & Sydney North Health Network, Ku-ring-gai Council and everyone who made possible today's 'Be Prepared for Summer' Community Emergency Expo at South Turramurra.**

Lots of Emergency Services agencies having a fun day out in the hot sun. The Neighbourhood Watch Ku-ring-gai & Hornsby stall had a great turnout with plenty of residents learning more about what Neighbourhood Watch is doing these days - mostly online, with our website, Facebook and weekly eNewsletter. We gave away lots of the 'Our 20 Favourite Crime Prevention Tips' sheets, NHW window stickers, car rego plate locking screws, along with promotional flyers for 'KerbWatch' (the latest project encouraging residents to paint their house number on their kerb).

Lots of children enjoyed the police dress-ups, 'catch-a-crim' photo booth and colouring-in. The highlight for us was introducing our new kangaroo team member who needed a name. The winner was the name 'Hoppy' and in the photo we have Paul Fletcher MP presenting the winner's grannie with the prize goodie bag (containing items from NSWPF, AFP, Ku-ring-gai Neighbourhood Centre and the NSW Government).

Thank you to our volunteers; Gay, Mary, Wal, Ben, Haylie, Warren and Julia. Also thanks go to Fiona and the Ku-ring-gai Police Area Command guys, for being such good neighbours,

and Paul Fletcher MP for joining in with us so enthusiastically.

Hi everyone! I was having lunch yesterday at Sous Le Soleil and I have to say it was delicious! However, when I returned to my car around 3 - 3.30pm I saw that it had been hit from behind. My car is brand new and I've had it less than three weeks. No note left, so I was wondering if anyone saw something? It was near the tennis courts and right behind the restaurant.

#### **14 September, Shared with permission from the Lindfield/ East Lindfield/ Killara/Roseville Community Group :**

Keep an eye out for two teenagers with backpacks checking out houses. Just caught them on my cameras in Fiddens Wharf Road, one looking around the house and the other as a lookout.

#### **And in the comments:**

if it's the same people they were on Lady Game last night too, and caught on camera, the owner of the house called the police.

Can anyone describe them? We had a young guy walk enter our back yard and walk into the back room of our house tonight. He said he was looking for a specific house number. Could have been legit but odd that he opted for the back gate in the dark and didn't come to the front door. Unnerving.

The footage we had was both had backpacks on and what looked like dark short hair. Gordon police came out to check and also have the footage of our incident.

#### **13 September, from Crime Stoppers NSW: SIX THINGS YOUR DEALER WON'T TELL YOU**

1. **Dealers use fillers** It is common knowledge that drug dealers "cut" or mix in fillers to drugs, and what is added could easily be a death sentence to a user. Drugs are sold

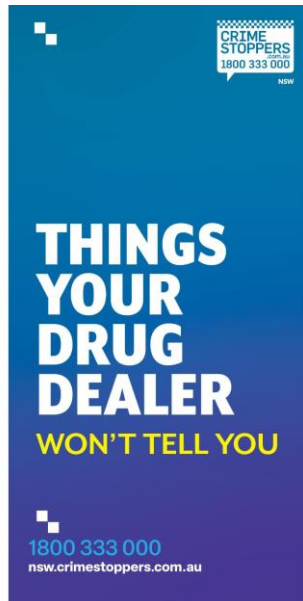

by the amount, so when a dealer wants to make a bigger profit they simply mix drugs with a range of other substances to achieve more income.

2. **It's profit over people** Drug dealers do what they do so they can make money. They work hard to build up trusted clients to create a 'supply and demand' dynamic – and will do plenty to be your 'friend' in order to get the sale. Don't forget, there's plenty of examples where someone suddenly owes money to a dealer, and that friendly demeanour slips and becomes a far more violent association.
3. **They don't know what's in the drugs** It might be hard to believe, but dealers don't really know what's in the drugs they are selling. Plenty of drug dealers are just a middle-man, and someone else, somewhere else originally made the drugs before they were shipped, trucked or flown into the hands of the current dealer. When you buy drugs there's no guarantee that they are what someone says they are, so it is Russian Roulette when it comes to your health and well-being.
4. **Pain caused is conveniently forgotten** Drug dealers operate in a world full of fear, hurt and pain. Not only does a dealer face the constant prospect of being arrested and held to account, each and every customer they have also faces the same threat – and could easily turn in their drug dealer to help reduce the severity of charges they might be facing or shorten a prison term. A drug dealer isn't going to tell you about some of the desperate things addicts do to get their next fix, or the occasions where someone overdoses and dies as a result. It would be bad for business.
5. **There's never a "deal"** Whether someone likes it or not, drug dealers don't play favourites. There's never going to be a 'special rate' or deal on offer just because you happen to be a nice person. Like any other business, drug dealers make a profit by charging more for their product than what they paid for it.
6. **There's something you can do** Crime Stoppers is a trusted, independent link between police and the community. We do not have call display or call trace on any of our telephones, and we do not record any calls or log an IP address if it is an online report. You are under no obligation to share any personal details, and information you provide can be nothing more than a suspicion. Even the smallest piece of information can make all the difference.

If you have any information about drug makers or dealers, you can contact **Crime Stoppers via a toll-free hotline (1800 333 000)**, make a report at [www.crimestoppers.com.au/home](http://www.crimestoppers.com.au/home)

### Complaint case study

*Adnan*<sup>\*</sup> lives in Australia while the rest of his family lives overseas.

Adnan asked his supervisor for some time off work so he could travel overseas to support his elderly dying father. Adnan's supervisor was unsympathetic to his request and discouraged him from taking leave. Despite this, Adnan was able to travel to see his father.

Shortly after his father's death and his return to Australia, Adnan's sister was involved in an accident and placed on life support. Adnan and his family made the difficult decision to turn off life support. Adnan returned overseas to arrange his sister's funeral and support his family.

After losing two close family members in a short period of time, Adnan was suffering emotionally. When he returned to work, his supervisor continued to show no empathy or support for his situation, assigned him difficult tasks and told him to take sick leave if he could not do them.

Adnan reported his experience to his company's HR department but felt further victimised after a workplace investigation found no wrongdoing.

Adnan lodged a complaint of carer's discrimination, disability discrimination and victimisation with ADNSW.

The complaint was resolved at a conciliation conference when Adnan and his employer agreed on a monetary payment.

## **12 September, from Dunga Simulation Driving PTY LTD: When your tyre bursts and you're on high speed sometimes, the first instinct is to panic and apply brake**

But this can be really dangerous. So train your mind to stay calm in such situations and try to follow the below steps. If your tyre bursts while driving fast:

- 1. Don't apply brake; you will tumble
- 2. Switch on your hazard light 🚨
- 3. Release the accelerator gradually
- 4. Keep car going straight; don't steer
- 5. Let car gradually stop; don't match brakes!

Safety is healthy!!

### From NHW in Ku-ring-gai & Hornsby: 'Our 20 Favourite Crime Prevention Tips for Retirement Communities:

- **Tip #1.** Install a peep-hole in your front door & install the brightest lightbulb in the light outside your front door.
- **Tip #4.** Fit keyed locks on sliding doors/windows. Alternative holes can allow a locked-while-open position for ventilation.
- **Tip #11.** Use ATMs inside the bank. Take your time. If you are worried about someone nearby, cancel the transaction. Hide that cash! Don't advertise the fact that you have money. Did you know some supermarkets will let you take out \$50 with no purchase necessary?
- **Tip #20.** Know your phone numbers. Ensure they are ready and available in your phone. Include an **ICE** number (In Case of Emergencies) for access by emergency services.
