

# Neighbourhood Watch Ku-ring-gai & Hornsby

**eNewsletter #743 - 06 January 2026**

This weekly eNewsletter is compiled by Neighbourhood Watch (NHW) volunteers as a service for residents in Ku-ring-gai and Hornsby council areas. The eNewsletter is a new type of Neighbourhood Watch; utilising the available technology to keep people more connected and up-to-date with local crime and safety issues.

The eNewsletter includes a selection of posts from our local police at the [Ku-ring-gai PAC Facebook page](#) (also known as 'eyewatch'), primarily for those not familiar with Facebook. We add anything interesting from a Neighbourhood Watch point-of-view - this could be a local newspaper article, a roadwork warning, crime prevention tip(s), an upcoming Neighbourhood Watch meeting, Q&As from residents, or an item from another Police command ("Crooks know no boundaries!").

🔗 Have you seen anything we should share with the community? [Please email](#) our NHW in Ku-ring-gai & Hornsby volunteers. We do value your contributions and thank you for your support.

🔗 Please feel free to share/forward this eNewsletter with your friends, family, colleagues and neighbours.

## **05 January, from Ku-ring-gai command: Australia's National Terrorism Threat Level remains at PROBABLE, and this level has not changed.**

We are providing this advice so you are prepared if there is an incident, not because we are expecting one. In an attack, what you do matters. **ESCAPE** by moving quickly and quietly away from danger, but only if it is safe to do so. If you cannot escape, **HIDE** by staying out of sight and silencing your mobile phone. When it is safe, **TELL** police by calling Triple Zero (000).

**06 January, Shared with permission from the Thornleigh Westleigh and Normanhurst Community group:**

Alert for all patrons of Thornleigh Marketplace car park, be cautious of a potential scam. An incident this afternoon involved a middle-aged man (well dressed), approaching an elderly female patron, claiming to have noticed a wire hanging from her vehicle. After offering to fix the issue, he distracted the victim while an accomplice stole from her purse which was in the car. The victim

reported the incident and had her cards cancelled, but her debit card was used three times before cancellation. Centre Management and the Police have been notified. Just a reminder that these types of people are out there, and to be aware of your surroundings.

**02 January, Shared with permission from the South Turrumurra Community Group: Happy New Year everyone!**

My car was damaged sometime between 3pm on Monday 29/12/25 and 7am 1/1/26 in the parking spots next to Turrumurra station, that run along the back of Cole's car park. Someone left a note but unfortunately the rain made light work of it and I was hoping that if anyone has any information that they would be happy to share it with me. Thank you.

Happy new year everyone, this is a long shot but I thought we might have some new year luck! My lovely mother in law from the UK sent a package to us but put the wrong address on the parcel. It was delivered somewhere in Thornleigh on the 19 Nov. Australia post won't share the delivery details, and the package is of sentimental value to my husband and I. If you received this or returned it to the post office could you please message me- so keen to see if we can recover it. Thank you so much 🙏🙏

### **02 January, from Officer Gomez: Why Snapchat is awesome!**

- 1) Very popular and most kids use it.
- 2) The filters on Snapchat are very fun to use.
- 3) Automatically hides information from parents.
- 4) Has a secret pass-coded picture vault.
- 5) Automatically logs devices out when logged into on another device.

### **Why not Snapchat is not so awesome!**

---

- 1) Parents can't check kids' phones for content incoming or outgoing.
- 2) Lots of inappropriate behaviors posted on Snapchat desensitize kids to reality. (Nude photos, drugs, parties, crimes, pornography, fights, pranks, challenges, etc.)
- 3) Parents can't monitor or filter information being seen.
- 4) Parents can't check who is talking to their children.
- 5) Parents have to blindly trust their young teens in a very hazardous environment.
- 6) Snapchat can broadcast your child's location within 10 feet.
- 7) Most predators highly recommend Snapchat to kids they are speaking with.
- 8) Snapchat comes with a built in AI (Artificial Intelligence) buddy that acts as a therapist, counselor, map, homework helper, dating advocate, sex advice, legal assistant, and much more. AI's functionality is very untested and should not be administered to kids at this time.
- 9) Once addicted to Snapchat, kids will do almost anything to have more Snapchat. It is very similar to what happens when people are addicted to hard drugs.

I strongly recommend 18 (previously 16) be a better age for Snapchat to be allowed on phones. I see many terrible things at school come across Snapchat and parents have no way to see what that is. It is common for 75% of girls in high school to have sent out naked pictures and most of those have been sent on Snapchat. I also see kids get completely addicted (4-10 hours per day) to time that is completely wasted and will not have any return on time used.

#### **Why risk this as a parent?**

- 1) I want to be the "cool parent".
- 2) I'm tired of arguing with my kid about it.
- 3) I have no idea what Snapchat is.
- 4) All the other kids have it. FOMO
- 5) I trust my kid and nothing you say will change that.
- 6) My kid is different than any other kid.

Did you know Snapchat has a built-in secret picture vault with its own password? Yup, most parents don't know about this either. (See my previous post about how to find the secret vault which is called My Eyes Only).

Most online predators love it when parents give their children Snapchat as there is no way to monitor it. I personally consider any device that has Snapchat an unmonitored device no matter how good parents think they are at

---

technology.

Did you know spambots can send unsolicited pornography indiscriminately to usernames on Snapchat? Phone checks are not going to uncover this feature. Please put some serious thought into letting your children have an application on their cell phones that hides information from parents.

Happy Parenting, Officer Gomez

### 01 January, from Hannah's Blue Butterflies Road Safety Awareness Inc: IS IT ILLEGAL TO SLEEP IN MY CAR?

Sleeping in your car in Australia isn't outright banned by federal law, but it's a mix of state rules and strict local council bylaws.

Queensland is the toughest (only in designated campsites), while other states like NSW, VIC, SA, WA, TAS, NT, ACT generally allow it if legally parked, but local signs or restrictions (parking limits, no overnight stays) can get you fined, so always check local signs and council rules.

**By State/Territory Overview-**

---

- Queensland (QLD): Strictest; sleeping in your car is considered camping and is illegal outside designated campgrounds or caravan parks.
- New South Wales (NSW): Generally okay if parked legally, but council bylaws often prohibit it in public spaces; check signs.
- Victoria (VIC): Many councils have specific bylaws banning overnight stays or camping in vehicles; always check local signs.
- South Australia (SA): No state law, but most councils have bylaws against it in public areas; RAA advises checking for signs.
- Western Australia (WA): Legal, but restrictions apply in parks, beaches, and reserves.
- Tasmania (TAS): Legal, but with restrictions in national parks, beaches, and reserves.
- Northern Territory (NT): Not inherently illegal, but frowned upon in non-designated areas; police may enforce camping rules.
- Australian Capital Territory (ACT): Check local parking rules and signs.

### Key Things to Remember-

- Local Councils: They often have specific bylaws that override general state laws.
- "Camping" vs. "Parking": Sleeping in your car can be deemed illegal camping, especially in QLD.
- Parking Restrictions: Even if sleeping is allowed, breaking parking time limits or parking illegally will get you fined.
- Fatigue: You can sleep in your car if necessary to manage fatigue (e.g., in a service station) but avoid being intoxicated in charge of a vehicle.
- Best Practice: Look for official signage in any area you plan to stay overnight; if you see "No Overnight Camping," "No Sleeping," or parking time limits, move on.

## 01 January, from ACT Policing: Apartment Safety 101

The holiday season brings joy, visitors, and busy schedules, but it's also a time to stay alert and be home security safe.

Keep your apartment safe with these security tips:

- 🚗 Be vigilant when driving in or out of car parks and wait until the gate closes behind you
  - 🗝️ Lock your vehicle even if it's a short stop
-

-  Secure your storage cage at all times
-  Lock external doors

Apartment safety is a team effort, and these small steps make a big difference. Watch video [here](#).

## Maintenance work on Old Northern Road, Glenorie to Wisemans Ferry continuing from Monday 5 January 2026

### Community Notification

December 2025

Transport for NSW acknowledges the Dharug and Guringai peoples as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW will carry out essential maintenance work on the shoulders of Old Northern Road, between Glenorie and Wisemans Ferry, to improve road safety.

This work was expected to be completed by Friday 19 December 2025 however due to unforeseen delays, work will now be completed by Friday 20 March 2026.

#### What work are we doing?

The work involves removing debris from both sides of the road shoulders on Old Northern Road between Glenorie Fire station and Singleton Road, Wisemans Ferry.

This work will improve safety for all road users by allowing water to better drain from the road during wet weather.

Further information on the location of the work can be seen on the map over the page.

#### When will we be working?

We will be working for up to **24 day shifts** and **eight night shifts** between **Monday 5 January** and **Friday 20 March 2026**, weather permitting.

##### Daytime work

We will be working during the day between Glenorie Fire Station and Hawkins Lookout.

Our day work hours will be between **Monday** and **Friday, 7am and 5pm**.

##### Nighttime work

We will be working at night between Hawkins Lookout and Singleton Road, Wisemans Ferry.

Our night work hours will be between **Sunday** and **Thursday, 8pm and 5am**.

We will not work on Friday nights, Saturdays or on the Monday 26 January 2026 public holiday.

What will this mean for you and how will we manage it?

Some of our work needs to be carried out at night to minimise disruption to traffic and reduce safety risks to our workers, pedestrians, and motorists.

The work may be noisy at times, but we will do everything we can to minimise our impacts by:

- turning off equipment and vehicles when not in use
- moving progressively along the road to avoid impacting the same area each day
- using quieter equipment where possible.

#### Traffic changes and driveway access

There will be temporary traffic changes to make sure the work zone is safe. This will include lane closures, a stop/slow traffic arrangement and a reduced speed limit of 40km/h.

Access will be maintained to all driveways on Old Northern Road. However, there may be minor delays at times to ensure the safety of motorists and our workers.

If you need to enter or exit your driveway while we are working nearby, please follow the directions of traffic controllers who will be on site to assist.

If you have any concerns about this work, or how it may affect you or your family, please contact our delivery partner, Fulton Hogan, to further discuss.

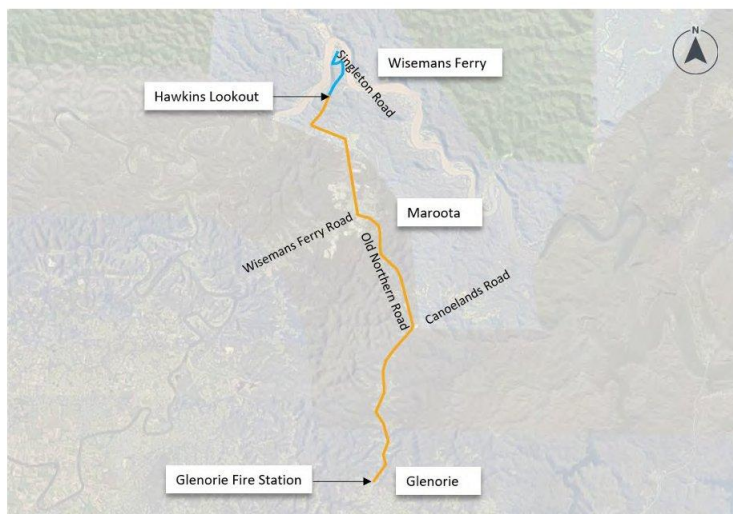

To subscribe to the email distribution list for this project, please contact [info.river@fultonhogan.com.au](mailto:info.river@fultonhogan.com.au)

Page 1 of 2

Please keep to speed limits and follow the direction of traffic controllers and signs.

Transport for NSW thanks the community for their patience while we complete this important safety improvement work.

Just wondering if anyone saw someone walking around last night ...getting creative? We are on Telopea Street. Haven't had a chance yet to walk around too see if there was any other cars done. Seemed to be on these 2 on our street and one near Berry park. 🤔

**And from the comments:**

Apparently the Pet Shop was also broken into, one of many last night. Please report anything unusual to Hornsby Police, such as spray painting on cars, robberies & anything suspicious. They want to know, as robberies have occurred last night.

We had a bike and a lawn mower stolen on the 25th or 26th - night.

**31 December, from Hannah's Blue Butterflies Road Safety Awareness: CAN I USE MY HOVERBOARD ON THE ROAD?**

No, you cannot use hoverboards on roads in most of Australia, as they are not considered legal for road use in states like New South Wales, Victoria, and Western Australia. In these states, hoverboards are generally restricted to private property to prevent safety risks.

In Queensland, laws are more relaxed, allowing them on footpaths and shared paths below 12 km/h, but they remain banned from roads with speed limits over 50 km/h or with features like median strips.

**Where hoverboards are banned or restricted-**

- New South Wales: Illegal on roads, footpaths, shared paths, and cycleways, with fines for violations.
-

- Victoria: Illegal on roads but may be allowed on footpaths and shared paths at speeds under 12 km/h, though the laws can vary.
- Western Australia: Illegal on roads, footpaths, and shared paths, restricting them to private property only.
- South Australia: Banned from public roads and walkways as of February 2024.

#### **Where hoverboards may be used-**

- Queensland: Allowed on footpaths and shared paths if the speed is under 12 km/h. They are also permitted on roads with a speed limit of 50 km/h or less, provided there are no footpaths available.

#### **Important considerations-**

- Hoverboards are considered a motorised device and cannot be registered for use on public roads.
- Fines for using hoverboards illegally can be substantial, ranging from around \$319 on footpaths to \$637 on roads in some areas.
- It is safest to only use hoverboards on private property to avoid fines and to prevent any potential accidents with pedestrians or other vehicles.

#### **31 December, Shared with permission from the Wahroonga Community Group: Late on Sunday evening (Around 10:23 pm, 28/12/25)**

A dog was hit and seriously injured by a car on Millewa Ave (just before the pedestrian crossing, opposite Wahroonga Park, near the stairs to the pedestrian railway bridge). The dog is now in surgery. It is obvious from the

---

injuries that the car was traveling quite fast. The driver also failed to stop or report the incident. Although the dog isn't mine, I am in contact with the owner. They are keen to find and talk to the driver of the car. We urge anyone who might have seen the incident (there was a man walking nearby and a few other cars who drove past around the time) to please reach out with any information you might have.
